

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

It has been pure joy not receiving CONSTANT unsolicited phone calls. It has improved the quality of my home life tremendously!

I'm able to "unstress" at home without the CONSTANT interruptions received by telemarketeers. It's again a joy to talk on the phone and to hear it ring! Indiana's law has been so effective in my life! It's unbelievable! I used to receive so many telemarketing calls I use to turn the phone "off" and seriously thought about permanently turning my phone "off" because it was becoming so ridiculous! I use to receive (at the very least) 12+ calls per week, sometimes over 6 a day! Now I only receive one a month! It's fantastic! You should consider using Indiana's law as a standard across the nation.

Please PLEASE don't take this away from us! It's a God send!
